

**BEST IN  
CLASS**

# Introducing SiteAccess

**Ensure the right people  
are on site and fully  
compliant with owner  
& employer requirements  
— quickly and consistently**

SiteAccess is a workforce management application that centralizes and automates the approval process for worker access to the worksite. It checks site-specific requirements, issues digital passes, and logs access events. SiteAccess brings efficiencies, simplifies compliance and reporting.

## What SiteAccess can do for you

- **Verify identity and credentials in real-time** using secure digital checks
- **Automate compliance rules** to simplify worker access
- **Issue time-limited digital passes** and integrate with kiosks, turnstiles, and mobile devices
- **Provide real-time dashboards** and alerts for noncompliance or expired credentials
- **Maintain tamper-proof audit trails** for contractors, owners, and regulators
- **Integrate** with HR, badge systems, and third-party credential providers to maintain approved workflows
- **Improve** site safety and minimize work stoppages by ensuring everyone meets requirements before entry
